

To the Volunteer Team:

Without a doubt, the 2016 season produced some of the most exciting and action packed racing that Red Bull Global Rallycross has seen since its inception in 2010. We were extremely excited to unveil our high octane brand of motorsport to new venues while maintaining our roots at some of our most popular venues.

On behalf of the entire series staff, I would like to extend a sincere thank you to all those who assisted throughout the season. The Volunteer Team was an integral part of our success this year. Your dedication, devotion, hard work, ability to handle adversity, and most importantly your level of passion, solidifies why Red Bull Global Rallycross is the most exciting and fastest growing form of motorsport in the world.

Don H. from Seattle said, ***"I'd like to thank you and the whole Red Bull GRC team for giving me an opportunity to volunteer my time and help you pull off an amazing event. I can honestly say I had more fun being part of the controlled chaos behind the scenes than I would have had I just bought tickets and been a spectator."***

Raymond C. from LA added, ***"I enjoyed my time working with you. Like I said, it was the most fun I ever had at an event. Wish it lasted longer."***

As we look forward to 2017, we are excited about the prospect of adding new venues, teams and manufacturers to the mix, and we hope that you can be part of the team for 2017. For those that were unable to help out this year we hope you can join the team for 2017. It truly is a unique opportunity to get an up close and behind the scenes look at the fastest growing racing series in the world.

We look forward to seeing you in 2017. For the latest news on Red Bull Global Rallycross and to sign up for our Volunteer Program, check us out at <http://redbullglobalrallycross.com/>. Also, stay connected and check us out on Facebook, Twitter, and Instagram @RedBullGRC.

Stay tuned for information on the 2017 season and Volunteer Program /Volunteer Form in the coming months.

See you in 2017.

Sincerely,

Peter Zglinski
